

Video Production

Barma is looking for a qualified intern to join our video production team, which is located at the company's headquarter in Aarhus. The internship period is adapted to the company and your needs and will be started on an ongoing basis. As an intern you will be part of a creative production team, working with the production of content for the learning platform Barma Academy. You will be in close collaboration with our production technician, be involved in the planning, recording, and post-production on content. In connection with this, you must participate in the recordings, where you can train your skills in filming video material with professional equipment. It is also expected that you will work on editing the material using Premiere Pro or Final Cut Pro X.

You should be prepared to work in a fast-paced team environment and will finish the internship having gained broad experience in various aspects of video production.

What to Expect from Your Internship?

In your internship, your work assignments will primarily relate to video production. The list below contains some of the work areas you will potentially work on in your internship. The detailed specification of work tasks is designed in a dialogue between you and Barma so that both your and our interests are met.

- Work with the video team on pre-production planning, recording, and post-production.
- Edit, and produce video content for our LMS-platform.
- Provide video, motion graphics & audio support throughout marketing, and other departments as needed.

We are looking for an intern who possesses most of the following qualifications:

- Ability to multitask and take initiative.
- A proactive and can-do attitude.
- Ability to take direction and absorb information quickly.
- You love working performance-based and strive to achieve your goals.
- Can use Premiere Pro or Final Cut Pro X in video editing.
- Has experience using cameras for video production.
- Familiarity with using Adobe Photoshop, Illustrator, and Adobe After Effects, even if not professionally.
- Ability to script and outline ideas for videos.
- Attention to detail.

About Barma

Barma is a small and fast-growing innovative company. Our business model is to create a revolutionary digital learning concept delivered on a digital learning platform.

The company works with development and distribution of e-learning material, with an industry-specific focus on the hospitality industry.

We help the industry to be able to train their staff through e-learning, where there is an opportunity for learning industry-relevant knowledge.

Among our customer group, we collaborate with Smukfest, Fjord Line and HORESTA, where we offer e-learning that intends to create a competence increase for their employees. The platform currently has over 16.000 unique users and the growth potential is high.

We at Barma ensure a structured onboarding, so you can get into the work tasks as easily and quickly as possible. We have had quite a few interns over time, which has helped us develop our approach to good onboarding.

At Barma, we as an organization have a strong focus on employee well-being and thus actively focus on creating a positive working environment.

The corporate culture is, in addition to the professional dimension, characterized by presence, mutual respect and a friendly tone. As part of the active effort in relation to creating a positive working environment, we prioritize joint social events such as communal dining, sports activities during breaks, cinema trips and Friday bar.

The company is undergoing an internationalization process where both external communication and internal communication are transformed into English. Therefore, you can easily apply for an internship at Barma, if you can just speak and write English.

Barma makes extensive use of recruiting interns for permanent positions.

During the period, we assess your professional development and your integration with permanent employees. If your potential matches the company, we may offer you a permanent position after the end of the internship period, or when you have completed your education.

If this sounds like something for you, you can send an application and CV below. If you have questions about the internship, do not hesitate to call or write to us.
